

1.04 Value Study Example

You will need to print this page and use a pencil to fill each square completely as follows:

- **Square 1:** Using the technique of shading, fill it in going from light to dark.
- **Square 2:** Using the technique of hatching, complete the square so that it includes lighter areas (by using fewer lines) and darker areas (by using more lines).
- **Square 3:** Using the technique of crosshatching, complete the square so it includes lighter areas (crossing fewer lines) and darker areas (crossing more lines).
- **Square 4:** Using the technique of stippling/pointillism, complete the square so it includes lighter areas (by using fewer dots) and darker areas (by using more dots).
